[WESTONAPRICE.ORG](http://WWW.WESTONAPRICE.ORG)

HELD AT THE  
LAIRD HALL AT WILSON COLLEGE  
1015 PHILADELPHIA AVENUE  
CHAMBERSBURG, PA 17201

## Sally Fallon Morell

Sally Fallon Morell is the author of the best-selling cookbook *Nourishing Traditions: The Cookbook That Challenges Politically Correct Nutrition and the Diet Dictocrats*, with Mary Enig, PhD, a world-renowned expert in the field of lipids and human nutrition. This well-researched, thought-provoking guide contains a startling message: animal fats and cholesterol

are not villains but vital

factors in a healthy diet, necessary for normal growth, proper functioning of the brain and nervous system, protection from disease and optimum energy levels.

In 1999, Fallon Morell helped found the Weston A. Price Foundation, a nonprofit, tax-exempt charity dedicated to restoring nutrient-dense foods to the American diet through education, research and activism. The Foundation supports a number of movements that contribute to this objective including accurate nutrition instruction, organic and biodynamic farming, pasture-feeding of livestock, community-supported farms, honest and informative labeling, prepared parenting and nurturing therapies.

Fallon Morell is also founder of A Campaign for Real Milk, dedicated to restoring consumer access to unprocessed milk products from pasture-fed cows. She is a frequent contributor to holistic health publications and serves as editor of *Wise Traditions*, the quarterly magazine of the Weston A. Price Foundation.

She is noted for sorting out fact from fiction in the complicated subject of human nutrition, and for making difficult concepts easy to understand. Her seminars are both inspiring and practical.

Take advantage of this rare opportunity to learn about the principles of healthy diets for all the members of your family!

## Conference Schedule

8:00 - 9:00 Registration & Visit Exhibits

9:00 - 10:30 Nourishing Traditional Diets, I  
Learn about the pioneering work of Weston A. Price and his studies of healthy nonindustrialized peoples. Dr. Price's photographs graphically illustrate the effects of processed foods on human health. Topics include the importance of fat-soluble vitamins, problems with a vegan diet, and the importance of pasture-based farming.

10:30 - 11:00 Visit Exhibits

11:00 - 12:30 Nourishing Traditional Diets, II  
Learn about the health benefits of raw milk, proper preparation of grains and legumes, the dangers of modern soy foods, benefits of lacto-fermented foods, the healing powers of genuine bone broth, and the importance of spacing of children.

12:30 - 1:45 Lunch & Visit Exhibits

1:45 - 3:00 The Oiling of America  
The incredible story of the phony cholesterol hypothesis. Find out how Americans were manipulated to believe that imitation foods are good for them and real foods are bad. Learn to recognize fraud in health research and the hidden agendas behind the push for lowfat foods. Find out why our bodies are starving for butter and other high-quality fats. Discover the true causes of heart disease and the dangers of cholesterol-lowering drugs.

3:00 - 3:30 Visit Exhibits

3:30 - 4:30 My Own Health Secrets  
What are the most important steps to take to improve your health? Sally Fallon Morell shares what worked for her.
